

RAIN PROVES A WELCOME VISITOR

Immediate Cultivation However Is Needed to Benefit Crop

The shower on Saturday was a welcome visitor. But unless the farmers cultivate right off—it will prove to be of more injury than benefit to crops. Before the shower there was a good dust mulch in the cultivated fields. Below this dust mulch the soil was moist. This shower came and made a little crust over the soil. Soil that is not stirred seems to form little pores through which the moisture is drawn up by capillary force set in operation by the sun's heat much as oil in a lamp is drawn up by capillary force set in operation by the flame of the lamp. The soil must be stirred about once a week to keep these pores from forming. Especially after a rain—is it necessary to cultivate to break off these pores. So the farmers will do well to keep the cultivators going after these showers.

If any one desires to see an alfalfa plot that is right, he should visit Fred Coon's farm just east of the city of Rhinelander. The alfalfa on this plot is about three inches tall and is one even carpet of green. It is not patchy and is comparatively free from weeds. This is one of the best outlooks for a successful alfalfa plot that one will often see. It is worth while to see this plot. One thing that has been learned in this spring's sowing of alfalfa is that the weed killing process cannot be too thoroughly done. Farmers who are thinking of putting in alfalfa next spring should keep the weeds down on a well cultivated plot this summer and then go through the weed killing process again next spring.

William Olson of the town of Pell can has brought into the county three or four good Guernsey cows. If any one desires to get onto the ropes of securing and bringing in Guernsey cows, he should see Mr. Olson. Some time ago Frank McLaughlin of the town of Crescent brought in four Guernsey cows and Mr. McLaughlin can also be helpful to any one thinking of bringing in some cows.

When a community sets out to amuse itself it usually enjoys a good time. People cannot work all the while. There must be some relaxation. Various legal holidays should be observed. Most of the time people observe holidays by going some place to be entertained. They stand or walk around all day and tire themselves out and some times commit excesses that get them into trouble. But the people of the town of Cassian entertained themselves on the Fourth of July. This Fourth about two hundred of them got together on the farm of A. K. Tresness. Clerk of the town of Cassian, in a little grove on the banks of the Tomahawk river. They had music, speeches, sports, and a bumpy big feast. There was plenty of ice cream and lemonade. Some of the boys shot off a few sticks of dynamite just to make sure it was the Fourth. The grove was decorated with flags. Nothing was done that it would take a week to get over. For a real jolly, happy crowd get in with the people of the town of Cassian on the Fourth of July.

The Oneida Guernsey Club meets again on Saturday afternoon, July 13 at 3:30. This meeting ought to be a good one. Any one can attend who desires to do so. The meetings are held in the Farmers' room in the court house.

MARRY AT ANTIGO

Miss Hattie Helm and A. O. Sorenson, both of Robbins, were united in marriage at Antigo on July 3. They will reside at Robbins.

Both Mr. Sorenson and his bride are well known and popular young people of their community. Miss Helm was until the close of the last term a teacher in the Oneida county schools. Best wishes are extended to them for a happy life.

CARS LEAVE TRACK

Wreck on Northwestern Road Near Newbold Saturday Night

Seventeen cars of a south bound Northwestern freight train left the track at Newbold, north of this city, Saturday night. The wreck tied up traffic on that end of the road until early Sunday morning. The south bound limited train was obliged to go around via the Watersmeet-Monico branch and was several hours behind schedule.

The cars which jumped the rails were heavily loaded with logs and other freight and the damage was large. No one was hurt.

RHINELANDER MAY HAVE BIG CARNIVAL

Street Attraction Wants to Exhibit In This City in August

There is a possibility that Rhinelander will have a street show some time during August. One of the big carnival companies wishes to exhibit in this city and will do so providing given the necessary support from the business people. As yet those who have the matter in hand are not prepared to speak for publication, but it is reported that the show wants a certain bonus for a three days appearance here. All the attractions would be held on the principal streets of the city. The carnival would be extensively advertised and would undoubtedly attract hundreds of visitors to Rhinelander.

There appears to be a division of opinion among the business men regarding the proposition. Some are in favor of a carnival and others are against it.

MRS. RACHEL McDONALD

Death Occurs Wednesday at Age of 72 Years

Mrs. Rachel McDonald, aged 72 years, passed away at 8:30 o'clock last Wednesday evening at the home of her daughter, Mrs. M. Kearns, 815 Arbuthus street.

For a number of weeks Mrs. McDonald had been ill with apoplexy and this affliction was the cause of death. She was a patient sufferer and during her long sickness was rarely heard to complain. For the last eight years deceased had resided in Rhinelander and had a retinue of friends here who deeply mourn her demise.

Mrs. McDonald is survived by two daughters, Mrs. H. L. Jewett and Mrs. M. Kearns and a step daughter, Mrs. L. Wesley, all of this city.

The funeral was conducted Saturday morning from St. Mary's church, Rev. F. Bertram officiated.

Mrs. McDonald was a devout Christian and a true friend. The family have the sympathy of all in their great loss.

TOMAHAWK HERE SUNDAY

The Rhinelander and Tomahawk base ball teams will play at the fair grounds in this city next Sunday afternoon. This bids fair to be an exceedingly exciting game as both teams travel in the same class and are both composed of all home players. On July 4th at the Hatchet City, Gaston's boys trimmed the Tomahawks, by a neat little score and hope to repeat the trick next Sunday.

Manager Gaston is complaining on the smallness of the crowds that attend games here and urges that the fans give the team better support. It is his aim to produce good clean base ball for the people of Rhinelander and hopes that the public will help him to succeed by lending their patronage. Be at the fair grounds Sunday and see the best game of the year.

Miss Frances Filas leaves Saturday for Milwaukee and Green Bay where she will visit for two weeks.

BIG CELEBRATION AT PELICAN LAKE

Many Rhinelander People Enjoy July 4th At The Little Resort Town

It is estimated that about 1500 strangers enjoyed the celebration at Pelican Lake on July 4th. Rhinelander, Crandon, and Antigo were well represented, about 200 attending from this city. Special trains were run from Crandon and Antigo.

That the people of Pelican Lake know how to do things was demonstrated by the rousing celebration arranged and successfully carried out by them. The program consisted of sports of all kinds, including a grand sparring exhibition. This feature was held in the open and was witnessed by all who cared to see the show.

Music was furnished by bands and orchestras and dancing was in order throughout the day. The celebration was generally voted to be the biggest and best ever held in Oneida county.

The Boxing Matches

The boxing matches were of the fast and exciting order. Al. King and Victor Lass furnished the main bout. The boys fought 8 hard rounds and some telling blows were exchanged. It is believed that King had the shade. They will meet again soon.

Dick Cramer stopped his man in the second and Kid McGuire and Kid Gleason fought a draw. Wm. Daniels refereed the bouts.

MRS. C. WISE DEAD

Aged Lady Dies at the Home of Daughter, Mrs. S. Walters

Mrs. Charlotte Wise, died Wednesday noon at 1:30 after a short illness from heart disease. She had not been in good health for some time, and the extreme hot weather seemed to hasten the end. Deceased was born at Campbelltown, New York, October 10, 1828. She was married at this place in 1845 to Joseph H. Stevens and to this union five children were born, four of whom survive her. She came to Wisconsin in 1862 and a year later the Stevens family moved to Minnesota where they resided for a period of three years, returning to this state at time of the Indian outbreak.

On their return to Wisconsin they located on a farm in the town of Dale, Outagamie county, where they lived until 1879 when they moved to Clintonville. Joseph Stevens died in 1891, and in 1897 deceased was united in marriage to Benjamin Wise of Eagle River. She continued her residence at Clintonville, however, until the death of her second husband, when he came to Rhinelander eight years ago and has since made her home with her youngest daughter, Mrs. S. Walters. The remains will be taken to Clintonville Friday where interment will be made in the family burial lot. A short service will be at the house by Rev. Johnson before going to the train. Mrs. S. Walters, Mrs. E. P. Laugesen, Rhinelander, Mrs. E. Luck, Duluth, and A. H. Stevens of Eagle River survive.

E. P. Laugesen, Mr. and Mrs. S. Walters, B. E. Walters of Mosinee, and Mrs. A. H. Stevens of Eagle River, and Mr. and Mrs. T. L. Young of Antigo, and Mrs. Chas. Hagen of Rhinelander, will accompany the remains to the last resting place.

FULLER'S NEW MANAGER

Although young in years John Anker, the new landlord at the Hotel Fuller, is long experienced in the hotel business and among the traveling fraternity of the state is popular. Under his management there is not a doubt but what the Fuller will continue to enjoy its large and steady patronage. Mr. Anker will give his personal supervision to every detail of the business and guarantees the best of service at all times.

CITY WAS DEAD

Very Quiet Here On The Nation's Birthday

July 4th in Rhinelander was a dull one. There was no observance here of any kind and the few people who remained in the city spent the time in a quiet manner. It is stated that two fire crackers were heard to explode during the day but this is doubted by many. In the evening some wag placed crepe on several of the telephone poles along Brown and Davenport Sts. in mourning for a dead town. It is hoped that the citizens of Rhinelander will not permit another July 4th to pass without a celebration. Nearly all of the neighboring cities observed the day.

THREE LOSE LIVES IN AUTO ACCIDENT

Turkish's Car Overturns at Duluth With Fatal Results —Daughter Hurt

Particulars of the horrifying automobile accident in which three people were killed and the daughter of Henry Turkish, formerly of this city, was hurt, told in a Duluth dispatch. The car was owned by Mr. Turkish. The newspaper account of the tragedy is as follows:

Life was instantly crushed from the bodies of Mrs. William White of Duluth, Miss Gladys Richardson of Bridgeport, Conn., and Langford Maddigan of Duluth, the latter a chauffeur, at about midnight on a country pike near Duluth, when a touring car in which they were returning home skidded from the road and overturned, pinioning its occupants beneath. Wm. White, Jr., was seriously injured about the back and is at a local hospital.

Miss Nannie Turkish, daughter of Henry C. Turkish, the lumberman, was severely shocked and lay apparently lifeless at the roadside, until carried to a near by farmhouse, where she was resuscitated.

Charles W. Fitzgerald, the sixth member of the party, was thrown clear of the wreckage and escaped without injury. Gaining his feet, he found an effort to move the heavy automobile fruitless and ran along the road to a farm, secured four men who pried the car from the bodies. The women and the chauffeur were dead.

ASSAULTS WIFE; TAKES HER PURSE

Frank Sagan Meets and Attacks Woman As She Leaves Jail

Frank Sagan of Armstrong Creek was arraigned in Judge Walker's court this week charged with highway robbery. The charge was changed to assault and battery and Sagan was fined \$25 or 60 days in jail. Sentence was then suspended upon his promise to leave the city.

Sagan made an attack upon his wife who was recently released from the county jail and snatched a purse from her containing \$149. Sagan claimed that the money rightfully belonged to him and was stolen by the woman when she left home with another man four months ago. Both were arrested here and sentenced to the county jail.

Sagan was captured by Sheriff Crofoot at Monico where he escaped to after committing the robbery. He did not submit to arrest peacefully and it was necessary for the sheriff to fire a couple of shots from his revolver in order to make him surrender.

Alvin Sutton, Maurice Anderson, Harry Laurence, Lester King and Ward and Kent Crofoot celebrated the 4th at Tomahawk.

HOLD MINOCQUA MAN FOR HOMICIDE

M. R. Kester Is Accused Of Killing 12 Year Old Everett Condron

M. R. Kester, a Minocqua resident is under arrest charged with homicide. Kester is accused of killing Everett Condron, aged 12 years, the adopted son of Mrs. Kester. The boy's body was found in the water near the shore of a lake at Minocqua Sunday evening. The neck was broken and physicians who examined the corpse found that death was not due to drowning.

District Attorney Fricke and Coroner Decanter conducted an inquest at Minocqua Monday and at the conclusion of the testimony the district attorney ordered Kester's arrest. He was brought to this city and his preliminary hearing was adjourned until next Tuesday.

Kester, it is alleged, was very abusive to the Condron boy and seemed to possess a hatred for the child. Saturday afternoon the boy left home and went to a neighbor's house one mile away. He remained there until Sunday afternoon when Kester came after him and started with the boy for home. This was the last seen of the little fellow until his lifeless body was discovered in the lake.

Kester claims that after taking the boy from the neighbor's house he rowed him across a thoroughfare and told him to drive the cows home. Kester says he then rowed around a bend in the lake where he tied the boat and went on shore.

At about six o'clock Sunday evening people fishing near the Kester home heard cries of a child as though in distress. It is believed that it was at that time when the boy met his death.

Circumstances points strongly against Kester and many do not hesitate in blaming him for the crime.

CARR-CALEF NUPTIALS

Popular Young Lady Is Bride of Alma Center Man

Miss Hazel Carr, eldest daughter of County Clerk and Mrs. W. W. Carr, became the bride of Ellis N. Calef of Alma Center, Wis., at the Carr home in this city Wednesday forenoon. The ceremony was performed by Father Johnson of St. Augustine's church at 11:30 o'clock. The attendants were Miss Lynne Carr, sister of the bride, and Rufus Scoon of Superior. Guests at the wedding were Mr. and Mrs. M. McRae, Mrs. G. C. Pinney, Misses Bernice Newell, Oget Anderson, Bessie LaPres and May Hagan of this city, and Edward Calef of Superior, father of the groom.

The young couple went to Lake George yesterday afternoon where they will spend their honeymoon.

The bride is a native of Rhinelander and a graduate of the High school. She taught in the schools of Hazelhurst, this county, where she met Mr. Calef, who was the principal. She has recently been attending the Superior Normal school. She is a young lady of many charms and possessed of the qualities which go to make a good wife. She is held in admiration by all who know her.

Mr. Calef, while a comparative stranger in the city, appears to be an excellent young man and has made a favorable impression among all who have met him. He was formerly in charge of the Hazelhurst schools and now holds a like position at Alma Center.

The New North joins in extending congratulations to Mr. and Mrs. Calef and wish them a long and happy married life.

FEATURE AT BIJOU

At the Bijou this week Miss Leola Mae Campbell, in the latest and most popular rag time song hits, is the star attraction. Last night she introduced the specialty, "Samantha Jane" and rendered her favorite song, "Weeping Willow." Both made big hits. She will be at the Bijou the rest of the week.

BIG GRANGE PICNIC

Prairie Lake and Cassian Granges Observe July 4th

A rousing good old fashioned picnic was held July 4th, under the auspices of Prairie Lake Grange No. 579 and Cassian Grange at the farm of Worthy Secretary Andrew Tresness of the Cassian Grange. The picnic was held in a beautiful grove on the banks of the Tomahawk river. About 150 people were assembled and at about one o'clock a bountiful feast was spread on the long table which had been prepared and every one proceeded to get busy. Free ice cream and lemonade were served all day. After every one had eaten their fill they were assembled and a group picture taken by Mr. E. L. Luther of Rhinelander. Mr. Luther and Mr. J. F. Wilde gave us very interesting and instructive addresses, after which foot races, sack races and one legged races took place.

In the evening a social dance was held at the hall in Cassian and a neat sum left in the treasury after all expenses were paid.

LOCAL TEAM PLAYS TWICE THIS WEEK

Boys Are Victorious at Tomahawk and Lose Out at Wittenberg

Tomahawk Game

By a score of 3 to 1 the Tomahawk Colts were defeated by the Rhinelander team at Tomahawk July 4th. It was the second game played by Tomahawk this season. The contest was interesting from start to finish and kept the fans on edge.

The Rhinelander team did well to get a man around to third in the first six innings, but from then on Tomahawk treated the visitors as all visitors should be treated, giving them almost anything they tried to get, including hits, bases on errors and so forth. Several times Tomahawk filled the bases and when a hit meant a run they failed to find the ball.

Summary—Hits—Off Lally 4, off Foss 8. Struck out—By Lally 9, by Foss 8. Bases on balls—Off Lally 3, off Foss 1. Left on bases—Rhinelander 9, Tomahawk 12.

Wittenberg Wins

Rhinelander lost to Wittenberg at that city Sunday by a score of 5 to 0.

The members of the local team were in poor condition to play base ball after waiting until 5 o'clock Sunday morning for the Northwestern train south. This was due to the freight wreck above this city. At Eland Junction the boys were unable to make train connections and were forced to travel to Wittenberg on a hand car. They were completely tired out upon their arrival there.

TWO NEW POTATO WAREHOUSES

P. M. Olson and A. M. Penny Company to Build Here

Rhinelander is to have two new potato warehouses. They will be built by P. M. Olson and the A. M. Penny Company, both Waupaca concerns.

The warehouses will be erected along the Northwestern railroad right-of-way in this city in the warehouse district. Mr. Olson's building will occupy the site of the Shannon and Lewis warehouses and will be 36x50 feet.

John Jardine, junior member of the Penny Company, was in the city today completing arrangements for the construction of his warehouse and work on the same will be commenced at once. The Penny Company is one of the heaviest potato dealers in the country and operates 26 warehouses.

NICE STRING OF PIKE

Lake Julia is again becoming a popular fishing ground. The pike are reported to be biting good there and within the last week some fine catches have been made. Al. Taylor and Milton Braeger broke the records Wednesday there when they caught a string of twenty-five pike.

Marquette—
The farmers of Marquette county are again finding truth and consolation in the old saw that it is an ill wind that blows nobody some good. In the case of the Pennington family, the wind that blows nobody some good is the scarcity of potato bugs, which is there and engage in the logging business. Veteran farmers who have Antigo—
resided in this vicinity since the first potato bug pest presented itself, state that there are fewer of the insects this season than ever before. Marquette county has become one of the greatest potato districts in the world.
Despite the fact that only a half crop of fruit is reported from other sections of the northwest, the Bay-Polar, this county, field county district will produce its Park Falls—
usual heavy crop. Advance shipment of strawberries have been made and men at work this week making pre-a bumper crop of the small fruit will be harvested. Over seventy carloads of berries were shipped from the Washburn-Bayfield district last season, but it is expected that over 100 cars will be marketed this year. The gooseberry, cherry, blueberry and other small fruit crops give promise of exceptional yields.
An unfortunate altercation terminated in the shooting of T. F. Armstrong, Jr., by Roy Eldred on Saturday. The parties had prior trouble. Meeting in front of the Armstrong land office, some rather strenuous conversation took place, Eldred finally pulling a re-

volver and chasing Armstrong to the pumping station, firing at him several times. Only a slight flesh wound was inflicted, but a slight variation would have resulted seriously. Eldred was brought before Justice Reeves on charge of assault with intent to do great bodily harm, and bound over to circuit court for trial.

Pembine—
A big timber deal has been closed by W. J. Robinson of Greig Bay whereby R. H. Pangborn becomes the owner of the timber on 3000 acres of land located near Pembine. Robert Gerstner sold the timber. It is estimated there are 6,000,000 feet of lumber on the property. Mr. Pangborn was formerly connected with the Pennington family. He will remain in charge of the logging business.

Washburn—
In such a serious condition that his commitment to the asylum was found crop of fruit is reported from other sections of the northwest, the Bay-Polar, this county, field county district will produce its Park Falls—

a water main extension from Main street to the new city hospital the common council discovered that there are only 153 hydrants in the city, while the municipality is paying the local privately owned water company an annual rental of \$6,000 or \$30 per year each for 200 hydrants. As this has been going on for years and unless the overcharge is returned to the city, it can safely be said that the city has been robbed of over \$15,000.

Tomahawk—
Thomas Robarge, for forty years a resident of Lincoln county was found dead in his bed in this city a few mornings ago. Heart failure was the cause of death. Mr. Robarge had worked as usual the day before and had not said anything about feeling ill. When his wife went to call him the next morning she found him dead.

Florence—
The Florence Iron Company intends plating two "forties" at Stambaugh. The company plans improving the plat to the extent of grading streets, laying sidewalks and putting in water and sewerage. The plans show an attractive addition to the village. There will be a wide boulevard. Close restriction will be placed on the class of dwellings to be built, so as to make it a strictly high grade residence district. The will be one or more houses built this summer by the company for the use of its officers. The houses will be of such design that they will be a credit and ornament to any town. When completed this addition will add much to the beauty of the village and make of Stambaugh one of the best and most attractive residence districts in the west end of Iron county.

WEDS SECRETLY

FLASHES FROM THE HEADLIGHT

Bits of News Pertaining To The Soo and Northwestern Railroads

President Edmund Pennington of the Soo line states his company will not build another mile of track in Wisconsin, giving as his reason that the state is overrun with politics and politicians who have a tendency to discourage new enterprise rather than to invite capital. We can readily see where there is much ground for Mr. Pennington's point, but we do not agree with him that because of politics the railroad should retrogress, such as is claimed by the railway.

The land-seekers special on the Soo went through here Wednesday. The special was run by the Western Land Securities Company of Chicago and contained seven coaches, including two sleepers and a dining car. Most of the excursionists came from Minneapolis, with the exception of 48 from Chicago. The excursion went to the Soo and Red Yard and then to New Seney.

By a recent state law of Michigan no employee can become an engineer without three years' service in an engine. No engineer can take a passenger run out of a terminal without two years' service as a freight engineer. The only exception is made where engineers may become disabled between terminals.

President Wm. McKenzie of the Canadian Northern railroad announced the construction program for 1912 which will include 500 miles of new track in Alberta and the undertaking of the construction of 1300 miles of track on a branch of Thief's river.

The state railway commissioners in their special car were in Duluth a short time ago on an official visit to the Roseau country. They have ordered the Soo and the Great Northern roads to connect their lines there with a "Y" which will be placed in position near the Soo crossing on Bridge street.

Two large locomotives are being repaired at the Gladstone shops. These are some of the largest locomotives used by the Soo and there are no larger engines used by any railway company.

About 35 carloads of sheep have been shipped in on the Soo from Montana to Ladysmith, Wis., this year.

The Canadian Northern Railway will be running trains into Duluth by Aug. 1, if present plans do not miscarry. It was planned to start the trains on July 15, but in spite of the fact that the work was rushed at top speed, this was found to be impossible.

CONTINUE OLD FEUD

Kentuckian Is Murdered Near White Lake Thursday

Frank Crisp, a southerner, was fatally knifed at White Lake in Langlade county, thirty miles north of Shawano, last Thursday, as the result of a feud which is said to have originated in the mountains of Kentucky.

"Bud" Stanley of West Virginia, who is alleged to have murdered the Kentuckian, fled southward, hotly pursued by the Langlade county sheriff. According to witnesses, Stanley and Crisp avoided an encounter during a ball game at Langlade several weeks ago, only to meet at a picnic and dance on the banks of White lake, both seeking satisfaction. A personal attack followed and it is asserted that as the two men clinched "Bud" a son of the elder feudist, attacked his father's opponent with a knife, severing a large artery mortally wounding Stanley in the abdomen. The Stanley clan drew their guns, keeping up a fusillade and sought refuge in a log cabin. It is reported that a gun was placed in the hands of the dying Crisp, who joined in the attack which followed as he lay on the ground. Mrs. Crisp who was with her husband when the murder occurred, is prostrated.

MAY MEET CAPONI

Billy Perkins Is Anxious For a Match With Italian

Billy Perkins writes the New North a letter from his home at Annandale, Minn., in which he states that he will return to Rhinelander to meet any middleweight boxer in the country at any time a match can be arranged. He is anxious to take on Tony Caponi and asserts that Wm. Daniels and J. C. Teal of this city are now endeavoring to get the Italian to meet him. Such a bout would be a great drawing card as Caponi is one of the famous pug in the ring today. Perkins has confidence in his ability to put one over on the boy from "Sunny Italy" and should he happen to do so he would have a fine start on making a reputation toward the top notcher class. The fans of this city hope that the bout can be arranged for the near future.

Love at First Sight.

Think of it! "No such thing as love at first sight!" Why, the idea is preposterous! Every man who was once a boy, and every woman who was once a girl, can testify by personal experience that there is such a thing as love at first sight, and even the recollection of it causes the oldest hearts to flutter again. Every writer of novels and every reader of them can add to the testimony of love at first sight.—Pittsburg Chronicle-Telegraph.

The One Thing That Counts.

Some persons, I know, estimate happiness by fine houses, gardens and parks—others by pictures, horses, money and various things wholly remote from their own speeches; but when I wish to ascertain the real felicity of any rational man, I always inquire whom he has to love. If I find he has nobody, or does not love those he has—even in the midst of all his profusion of money and grandeur, I pronounce him a being deep in adversity.—From Elizabeth Inchbald's "Nature and Art."

Hen's Ample Vocabulary.

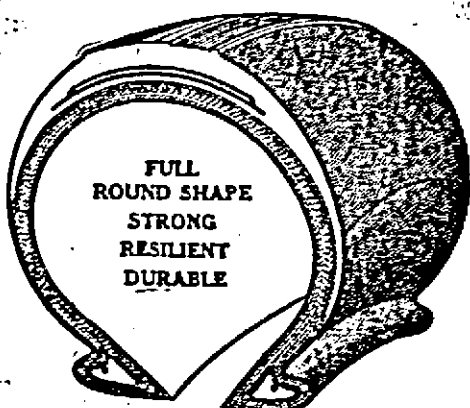

It is claimed that the common hen is not far behind the turkey in her vocabulary. Furthermore, she is said to be a much more fluent "talker" than the rooster. Her cackle is used for three different purposes, and each cackle is different from the other cackles. One she uses when seeking a nest, or when calling for her mate; one when she is frightened; and another, of a triumphant sort, as she flies from or to the nest.

FOUND RELIEF FROM ECZEMA AFTER SUFFERING 20 YEARS.

"For twenty years I suffered from eczema. My skin would break out and itch and burn terribly. I heard of Sazo Salve and decided to try it. After two or three applications I found great relief and before I had used one tube I was completely well. If it will benefit others who suffer from eczema you may publish my letter, as I believe Sazo Salve will do just what you claim it will."—A. Pritchett, Shelbyville, Ill.

It is astonishing, even to us, to see how Sazo Salve, our new remedy for skin affections, allays the itching, softens, soothes and heals the skin in all sorts of eruptive disorders, such as eczema, barber's itch, ringworm, tetter, etc.

It is guaranteed to help you—we cheerfully give back your money if it does not.

POINTERS FOR THE MOTORIST

Often times motorists seem to think that no care is necessary in carrying spare tires, says a Michelin Expert. Uncovered envelopes are tossed on roofs of automobiles where sun and rain beat upon them. Unprotected inner tubes are thrown carelessly into tool boxes where they come in contact with sharp tools.

Needless to say, such practices are destructive. Strong light is very injurious to rubber. So likewise is heat. For these reasons, if no other, spares should be kept in cases.

Moisture and oil are also injurious to tires. Waterproof wrappers which keep out light, moisture and oil and at the same time protect spares from injury by contact with sharp substances, can be had of any accessory dealer. Every motorist should use them.

Cardboard boxes are never satisfactory for carrying tubes in a car. Every vibration of the car causes chaffing between the box and tube and since cardboard is harder than rubber, the tubes will inevitably be injured. Covers for inner tubes should take the form of bags which will fit snugly around the tube.

No Limit to His Cleverness.

Two men, one eighty years old and one ninety years old, who live in an institution near Washington, had a quarrel that developed into a fist fight. The eighty-year-old pugilist won. "God darn his skin, I could have licked him if he had been a hundred years old!"—Saturday Evening Post.

Oldtime Dinner Reproduced.

A reproduction of a nineteenth-century dinner has been served at a recent Vienna cookery exhibition. The menu consisted of pike cooked in oil and then pressed into a paste, a paste made of venison with millet, and a roast peacock, containing a whole chicken; the chicken in turn stuffed with a pigeon, and the pigeon again stuffed with roasted eggs.

Nothing Good Ever in Vain.

President Taft finds time in the present turmoil to play golf as usual. When the spring golfing is resumed, he will have nothing to interfere with his continual enjoyment of the game.—St. Paul Dispatch.

We are printing the republican platform this week and shall publish the democratic platform next week, then the LaFollette platform which was repudiated at the national republican convention and later we shall print the Roosevelt platform if a third party is formed. We advise our readers to save the papers containing these platforms so they can compare them.

With such a man as Wilson as the candidate of the Democratic party, the issue in November cannot be in doubt. There are more than three million Progressive Republicans in these United States, as shown in Roosevelt's primary vote, that ought not hesitate, nor do we think they will, to vote for Governor Woodrow Wilson. In him the plain people have an ideal candidate.—Merrill Herald, Progressive Republican.

SAME OLD GAME

The democratic convention is now in session in Milwaukee. It is the same old condition that exists in the other parties, half progressive, half stalwart; some favor the income tax, some oppose it and think they can catch more votes by demanding its repeal. They are playing the same old game that the professional politicians always do. They are trying to say something to catch the voter. More, they are trying to say something to satisfy the stalwarts and still not lose the progressive vote. We pity them.

Des Moines, Ia., July 10.—Insurgent Republicans controlling the second state convention here today seceded from the national Republican party, refusing to endorse either the national Republican platform or the national candidate and announced that every man's conscience should guide him with respect to supporting the national ticket.

TAFT ENTHUSIASM MISCARRIED

At Jersey City, N. J., the Hudson county committee called a mass meeting on June 29th for the announced purpose of endorsing President Taft as the standard bearer of the party. Instead of carrying out their plans the meeting by a vote of 399 to 21 passed resolutions declaring Col. Roosevelt as the "only true Republican" and asserting that the renomination of President Taft was gained by fraud.

KAREL OR SCHMITZ

Judge J. C. Karel and A. J. Schmitz will be the leading candidates for the Democratic gubernatorial nomination in the state convention which opens at the Pabst theater at 10 o'clock this morning.

Complimentary votes probably will be given by various delegations to county favorites, but the big issue before the gathering centers around the candidacy of Judge Karel and Mr. Schmitz.

Dan Grady, Portage, will place the name of Judge Karel before the convention as a candidate for the gubernatorial nomination. The man who will nominate Mr. Schmitz has not been finally decided upon last night.

Deepest Mutual Sorrow.

Man never knows what mutual sorrow really is until he reads an editor's regrets.—Lippincott's Magazine.

IS IT SAFE?

Mr. Barnes of New York, controlling his delegates with masterly ability, explained to them that they were standing against the wall for the rights of property. Is theirs the way to make property safe? If you ride over huge majorities, and they do it by the aid of theft, are the privileges in which Mr. Barnes believes really rendered safe? Are you not endangering the coolness and good temper of the masses when your robbery is in the light of day?

For the bandits, be it said, they regretted so raw a deal. Had their strong man on the Supreme Bench been willing to yield, he would have been nominated instead of Taft, and the issue would have been less clear. Had the clever Governor of Missouri yielded, he might have had the tainted honor. Barnes was in a position where he had to put Mr. Taft through or see the victorious Goths and Huns of Roosevelt trampling down his sacred rights. It was only a few years ago, when he was in the Roosevelt camp, that Elihu Root then said of the same men who have just stolen the Republican Convention:

"They are an aggregation of criminals masquerading under the name of Republicans." Mr. Barnes says that if he loses the election this year, and in four years and eight hence, he will still decree that the Republican party stand for representative government and for property. Happily, in order to end his insolent and bandit rule, rough means are not required. The mere ballot will suffice, and we believe the ballot will end it soon. The most important fact to be realized just now (even more important than that the Republican Convention did not represent the Republican public voters) is that the President could not have possibly been renominated without actual theft. Every voter should be made aware of exactly what happened in the States where the methods employed were most unmistakably larcenous. For our part, we were there no other choice, we should gladly march to the polls and vote for Debs rather than willingly submit to the larceny of the Harvard graduate from New York.—Collier's Weekly.

INTENSE PROGRESSIVE

Harper's Weekly of June 29, contains an epigrammatic review of the Chicago convention by William Ingalls, who closes his remarks of the Wisconsin incident as follows:

"Young Mr. Cochems, the late football star, who tried to switch the LaFollette boom to the Roosevelt track, but couldn't, is so progressive, vehement, and so full of red blood that when he tries to make a speech he quivers, and gurgles, and tumbles like an automobile standing still with the engine going full speed."

His Obligation to Nature.

Nature was his nurse and playfellow. For him she would let slip between the leaves the golden shafts of sunlight that fell just within his grasp; she would send wandering breezes to visit him with the balm of bay and resinous gums; to him the tall red woods nodded familiarly and sleepily, the bumble bees buzzed, and the rooks cawed a slumberous accompaniment.—Bret Harte.

Saw Nothing of Value in Pearls.

When the army of Galerius sacked the camp of the routed Persians a bag of shining leather filled with pearls fell into the hands of a private soldier, but the latter, while carefully preserving the bag, threw away its contents under the impression that anything that could not be used for useful purposes had no other value.

Where You Can See Meridian Line.

The meridian of the earth, the scientist will tell you, is an imaginary line running from north to south. It is not generally known, however, that near Greenwich observatory the meridian line can be actually seen and walked upon. It is deeply grained in stone, and is laid in the footpath that leads round the observatory.—Wide World Magazine.

Three Songs of the Hen.

The hen has songs of three distinct types—the lovesong, a happy repose to her mate; the song of indifference, when idly hunting for food, indicating no certain purpose in her movements; and the lullaby song, a low, crooning, soothing note, hushing the young chickens to sleep.

Her Explanation.

Queen Elizabeth was very much provoked when she found that her cousin, Mary queen of Scots, had been put to death. "I can't help it if people will lose their heads at critical moments," her majesty petulantly exclaimed. "As far as I am concerned, the occurrence was entirely accidental."

Riches From the Caspian Sea.

Such enormous quantities of fish are obtained from the Caspian sea that promoters in Baku are to attempt supplying Russia with all the fertilizer it requires from this source.

REPUBLICAN PLATFORM

The Republican party, assembled by its representatives in national convention, declares its unchanging faith in government of the people, by the people, for the people. We renew our allegiance to the principles of the Republican party and our devotion to the cause of Republican institutions established by the fathers.

It is appropriate that we should now recall with a sense of veneration and gratitude the name of our first great leader who was nominated in this city, and whose lofty principles and superb devotion to his country are an inspiration to the party he honored—Abraham Lincoln. In the present state of public affairs we should be inspired by his broad statesmanship and by his tolerant spirit toward men.

Views Record with Pride. The Republican party looks back upon its record with pride and satisfaction, and forward to its new responsibilities, with hope and confidence. Its achievements in government constitute the most luminous pages in our history. Our greatest national advance has been made during the years of its ascendancy in public affairs. It has been genuinely and always a party of progress; it has never been either stationary or reactionary. It has gone from the fulfillment of one great pledge to the fulfillment of another in response to the public need and to the popular will.

We believe in our self-controlled representative democracy, which is a government of laws not of men, and in which order is the prerequisite of progress.

The principles of constitutional government, which make provision for orderly and effective expression of the popular will, for the protection of civil liberty and the rights of men, and for the interpretation of the law by an untrammeled and independent judiciary, have proved themselves capable of sustaining the structure of a government which, after more than a century of development, embraces 100,000,000 of people, scattered over a wide and diverse territory, but bound by common purpose, common ideals, and common affection to the constitution of the United States.

Growth of United States.

Under the constitution and the principles asserted and vitalized by it the United States has grown to be one of the great civilized and civilizing powers of the earth. It offers a home and an opportunity to the ambitious and the industrious from other lands. Resting upon the broad basis of a people's confidence and a people's support, and managed by the people themselves, the government of the United States will meet the problems of the future as satisfactory as it has solved those of the past.

The Republican party is now, as always, a party of advanced and constructive statesmanship. It is prepared to go forward with the solution of those new questions which social, economic, and political development have brought into the forefront of the nation's interest. It will strive, not only in the nation but in the several states, to enact the necessary legislation to safeguard the public health; to limit effectively the labor of women and children; to protect wage earners engaged in dangerous occupations; to enact comprehensive and generous workmen's compensation laws in place of the present wasteful and unjust system of employers' liability; and in all possible ways to satisfy the just demand of the people for the study and solution of the complex and constantly changing problems of social welfare.

Rights of the Individual.

In dealing with these questions it is important that the rights of every individual to the freest possible development of his own powers and resources and to the control of his own justly acquired property, so far as those are compatible with the rights of others, shall not be interfered with or destroyed.

The social and political structure of the United States rests upon the civil liberty of the individual, and for the protection of that liberty the people have wisely, in the national and state constitutions, put definite limitations upon themselves and upon their governmental officers and agencies. To enforce these limitations, to secure the orderly and coherent exercise of government powers, and to protect the rights of even the humblest and least favored individual are the function of independent courts of justice.

The Republican party reaffirms its intention to uphold at all times the authority and integrity of the courts, both state and federal, and it will ever insist that their powers to enforce their process and to protect life, liberty and property shall be preserved inviolate. An orderly method is provided under our system of government by which the people may, when they choose, alter or amend the constitutional provisions which underlie that government.

Laws Against Long Delays.

Until these constitutional provisions are so altered or amended, in orderly fashion, it is the duty of the courts to see to it that when challenged they are enforced.

That the courts, both federal and state, may bear the heavy burden laid

upon them to the complete satisfaction of public opinion, we favor legislation to prevent long delays and the tedious and costly appeals which have so often amounted to a denial of justice in civil cases and to a failure to protect the public at large in criminal cases.

Since the responsibility of the judiciary is so great, the standards of judicial action must be always and everywhere above suspicion and reproach. While we regard the recall of judges as unnecessary and unwise, we favor such action as may be necessary to simplify the process by which any judge who is found to be derelict in his duty may be removed from office.

Together with peaceful and orderly development at home, the Republican party earnestly favors all measures for the establishment and protection of the peace of the world and for the development of closer relations between the various nations of the earth. It believes most earnestly in the peaceful settlement of international disputes and in the reference of all justifiable controversies between nations to an international court of justice.

Monopoly and Privilege.

The Republican party is opposed to special privilege and to monopoly. It placed upon the statute book the interstate commerce act of 1887, and the important amendments thereto and the anti-trust act of 1890, and it has consistently and successfully enforced the provisions of these laws. It will take no backward step to permit the re-establishment in any degree of conditions which were intolerable.

Experience makes it plain that the business of the country may be carried on without fear or without disturbance, and at the same time without resort to practices which are abhorrent to the common sense of justice.

The Republican party favors the enactment of legislation supplementary to the existing anti-trust act which will define as criminal offenses those specific acts that uniformly mark attempts to restrain and to monopolize trade, to the end that those who honestly intend to obey the law may have a guide for their action, and that those who aim to violate the law may be more surely punished.

The same certainty should be given to the law prohibiting combinations and monopolies that characterizes other provisions of commercial law, in order that no part of the field of business opportunity may be restricted by monopoly or combination, that business success honorably achieved may not be converted into crime, and that the right of every man to acquire commodities of life, in an open market uninfluenced by the manipulation of trust or combination may be preserved.

Federal Trade Commission.

In the enforcement and administration of federal laws governing interstate commerce and enterprises impressed with a public use engaged therein, there is much that may be committed to a federal trade commission, thus placing in the hands of an administrative board many of the functions now necessarily exercised by the courts. This will promote promptness in the administration of the law and avoid delays and technicalities incident to court procedure.

The Tariff.

We reaffirm our belief in a protective tariff. The Republican tariff policy has been of the greatest benefit to the country, developing our resources, diversifying our industries, and protecting our workmen against competition with cheaper labor abroad, thus establishing for our wage earners the American standard of living.

The protective tariff is so woven into the fabric of our industrial and agricultural life that to substitute for it a tariff for revenue only would destroy many industries and throw millions of our people out of employment. The products of the farm and of the mine should receive the same measure of protection as other products of American labor.

We hold that the import duties should be high enough while yielding a sufficient revenue to protect adequately American industries and wages. Some of the existing import duties are too high and should be reduced. Readjustment should be made from time to time to conform to changed conditions and to reduce excessive rates, but without injury to any American industry.

To accomplish this correct information is indispensable. This information can best be obtained by an expert commission, as the large volume of useful facts contained in the recent reports of the tariff board has demonstrated.

Changing Conditions Require Study.

The pronounced feature of modern industrial life is its enormous diversification. To apply tariff rates justly to these changing conditions requires closer study and more scientific methods than ever before. The Republican party has shown by its creation of a tariff board its recognition of this situation and its determination to be equal to it.

We condemn the Democratic party for its failure either to provide funds for the continuance of this board or to make some other provision for securing the information requisite for intelligent tariff legislation. We protest against the Democratic method of legislating on these vitally important subjects without careful investigation.

We condemn the Democratic tariff

We condemn the Democratic tariff bills passed by the house of representatives of the Sixty-second congress as sectional, as injurious to the public credit, and as destructive of business enterprise.

The steadily increasing cost of liv-

ing has become a matter not only of national, but of worldwide concern. The fact that it is not due to the protective tariff system is evidenced by the existence of similar conditions in countries which have a tariff policy different from our own, as well as by the fact that the cost of living has increased while rates of duty have remained stationary or been reduced.

The Republican party will support a prompt scientific inquiry into the causes which are operative, both in the United States and elsewhere, to increase the cost of living. When the exact facts are known it will take the necessary steps to remove any abuses that may be found to exist, in order that the cost of the food, clothing and shelter of the people may in no way be unduly or artificially increased.

Banking and Currency.

The Republican party has always stood for a sound currency and for safe banking methods. It is responsible for the resumption of specie payments, and for the establishment of the gold standard. It is committed to the progressive development of our banking and currency system.

Our banking arrangements today need further revision to meet the requirements of current conditions. We need measures which will prevent the recurrence of money panics and financial disturbances, and which will promote the prosperity of business and the welfare of labor by producing constant employment.

We need better currency facilities for the movement of crops in the west and south. We need banking arrangements under American auspices for the encouragement and better conduct of our foreign trade. In attaining these ends, the independence of individual banks, whether organized under national or state charters, must be carefully protected, and our banking and currency system must be safeguarded from any possibility of domination by sectional, financial or political interests.

Money for the Farmers.

It is of great importance to the social and economic welfare of this country that its farmers have facilities for borrowing easily and cheaply the money they need to increase the productivity of their land.

It is as important that financial machinery be provided to supply the demand of farmers for credit as it is that the banking and currency systems be reformed in the interest of general business.

Therefore, we recommend and urge an authoritative investigation of agricultural credit societies and corporations in other countries, and the passage of state and federal laws for the establishment and capable supervision of organizations having for their purpose the loaning of funds to farmers.

The Civil Service.

We reaffirm our adherence to the principle of appointment to public office based on proved fitness, and tenure during good behavior and efficiency.

The Republican party stands committed to the maintenance, extension, and enforcement of the civil service law, and it favors the passage of legislation empowering the president to extend the competitive service so far as practicable. We favor legislation to make possible the equitable retirement of disabled and superannuated members of the civil service, in order that a higher standard of efficiency may be maintained.

We favor the amendment of the federal employees liability law so as to extend its provisions to all government employees, as well as to provide a more liberal scale of compensation for injury and death.

Campaign Contributions.

We favor such additional legislation as may be necessary more effectively to prohibit corporations from contributing funds, directly or indirectly, to campaigns for the nomination or election of the president, the vice president, senators, and representatives in Congress.

We heartily approve the recent act of Congress requiring the fullest publicity in regard to all campaign contributions, whether made in connection with primaries, conventions, or elections.

Conservation Policy.

We rejoice in the success of the distinctive Republican policy of the conservation of our national resources for their use by the people without waste and without monopoly. We pledge ourselves to a continuance of such a policy.

We favor such fair and reasonable rules and regulations as will not discourage or interfere with actual bona fide homesteaders, prospectors, and miners in the acquisition of public lands under existing laws.

Parcels Post.

In the interest of the general public, and particularly of the agricultural or rural communities, we favor legislation looking to the establishment, under proper regulations, of a parcels post, the postal rates to be graduated under a zone similar in proportion to the length of carriage.

Protection of American Citizenship.

We approve the action taken by the president and the Congress to secure with Russia, as with other countries, a treaty that will recognize the absolute right of expatriation and that will prevent all discrimination of whatever kind between American citizens, whether native born or alien and regardless of race, religion, or previous political allegiance. The right of asylum is a precious possession of the people of the United States, and it is to be neither surrendered nor restricted.

The Navy.

We believe in the maintenance of an adequate navy for the national defense, and we condemn the action

of the Democratic House of Representatives in refusing to authorize the construction of additional ships.

Merchant Marine. We believe that one of the country's most urgent needs is a revived merchant marine. There should be American ships, and plenty of them, to make use of the great American inter-oceanic canal now nearing completion.

Flood Prevention.

The Mississippi river is the nation's drainage ditch. Its flood waters gathered from thirty-one states and the Dominion of Canada, constitute an overpowering force which breaks the levees and pours its torrents over many million acres of the richest land in the union, stopping mails, impeding commerce, and causing great loss of life and property.

These floods are national in scope and the disasters they produce seriously affect the general welfare. The state unaided cannot cope with this giant problem, hence, we believe the federal government should assume a fair proportion of the burden of its control so as to prevent the disasters from recurring floods.

Reclamation.

We favor the continuance of the policy of the government with regard to the reclamation of arid lands; and for the encouragement of the speedy settlement and improvement of such lands we favor an amendment to the law that will reasonably extend the time within which the cost of any reclamation project may be repaid by the land owners under it.

Rivers and Harbors.

We favor a liberal and systematic policy for the improvement of our rivers and harbors. Such improvement should be made upon expert information and after a careful comparison of cost and prospective benefits.

Alaska.

We favor a liberal policy toward Alaska to promote the development of the great resources of that district, with such safeguards as will prevent waste and monopoly.

We favor the opening of the coal lands to development through a law leasing the lands on such terms as will invite development and provide fuel for the navy and the commerce of the Pacific Ocean, while retaining title in the United States to prevent monopoly.

The Philippine policy of the Republican party has been and is inspired by the belief that our duty toward the Filipino people is a national obligation which should remain entirely free from partisan policies.

Immigration.

We pledge the Republican party to the enactment of appropriate laws to give relief from the constantly growing evil of induced or undesirable immigration, which is inimical to the progress and welfare of the people of the United States.

We favor the speedy enactment of laws to provide that seamen shall not be compelled to endure involuntary servitude, and that life and property at sea shall be safeguarded by the ample equipment of vessels with lifesaving appliances and will full complement of skilled, able-bodied seamen to operate them.

Republican Accomplishment.

The approaching completion of the Panama canal, the establishment of a bureau of mines, the institution of postal savings banks, the increased provision made in 1912 for the aged and infirm soldiers and sailors of the republic and for their widows, and the vigorous administration of the laws relating to pure foods and drugs all mark the successful progress of Republican administration, and are additional evidence of its effectiveness.

Civic Duty.

We call upon the people to quicken their interest in public affairs, to condemn and punish lynchings and other forms of lawlessness, and to strengthen in all possible ways a respect for law and the observance of it. Indifferent citizenship is an evil from which the law affords no adequate protection and for which legislation can provide no remedy.

Arizona and New Mexico.

We congratulate the people of Arizona and New Mexico upon the admission of those states, thus merging in the union in final and enduring form the last remaining portion of our continental territory.

Republican Administration.

We challenge successful criticism of the sixteen years of Republican administration under Presidents McKinley, Roosevelt and Taft. We heartily reaffirm the indorsement of President McKinley contained in the platform of 1900 and 1904; and that of President Roosevelt contained in the platform of 1904 and 1908.

We invite the intelligent judgment of the American people upon the administration of William H. Taft. The country has prospered and been at peace under his presidency. During the years in which he had the co-operation of a Republican congress an unexampled amount of constructive legislation was framed and passed in the interest of the people and in obedience to their wish. That legislation is a record on which any administration might appeal with confidence to the favorable judgment of history.

We appeal to the American electorate upon the record of the Republican party and upon this declaration of its principles and purposes. We are confident that under the leadership of our candidates here to be nominated our appeal will not be in vain; that the Republican party will meet every just expectation of the people whose servant it is; that under its administration and its laws our nation will continue to advance; that peace and prosperity will abide with the people, and that new glory will be added to the great republic.

SPEAKS AT PELICAN LAKE
Attorney A. J. O'Melia Makes Fourth Of July Address
Among the many attractions of the day at Pelican Lake on the Fourth was an eloquent address by Attorney A. J. O'Melia of this city. Mr. O'Melia told his hearers the history of the birth of our country, of the hardships and trials of our forefathers and then outlined the impetuous progress of the North and the wonderful industrial development of the South. Some good advice was given regarding the political spirit necessary to keep the reins of government in the hands of the people and maintain it as the home of the free and not the hunting ground for human money crazed vultures. All who heard Mr. O'Melia are high in their praise of his eloquence and insight.
NEW BOOKS AT THE LIBRARY
A reference work which has long been needed at the library is among the recent purchases. This is the Standard Bible Dictionary by Jacobus. It is an excellent one volume dictionary. The articles are written by biblical experts and are necessarily brief, but exclusive, simple and adequate for the ordinary reader or Sunday School worker. The student of the bible or the general reader looking up allusions in their every day reading will find this work exceedingly useful.
Gibson—Sharp Eyes. A Rambler's Calendar Among Insects, Birds and Flowers. Talks about insects, birds and flowers, such as A Butterfly Serenade; The Partridge and His Mysterious "Drum"; Winter Bird Secrets; Ballooning Seeds; Wonders of the Fungus; Among the Birds' Nests; Stories in the Snow; Insect Orchestra and its Various Instruments. Exquisite illustrations by the author.
Hutchinson—We and Our Children. Suggestive, helpful and extremely entertaining chapters, reprinted from different periodicals, on the care and training of children. Information on matters too little considered are given and while in no sense a nursery guide the volume is likely to prove more stimulating and actually valuable to parents of growing children than the formal works.
Addams—Newer Ideals of Peace. Studies of the gradual development of the moral substitute for war, dealing with various ideals of government; survival of militarism in city government; the failure to utilize immigrant in city government; militarism and industrial legislation; group morality in the labor movement; protection of children for industrial efficiency; the utilization of women in city government; and the passing of war.
To these problems of democracy and society Miss Addams has the people of his village are endeavoring to secure a high school there this year and expect to succeed in providing a sufficient enrollment can be obtained. In order to do this it may be necessary to get pupils from neighboring towns.
A large addition is now being built to the Goodman school.

OPERATE THREE SHIFTS

Local Paper Makers Now Work Only Eight Hours

Beginning this week the paper makers employed at the plant of the Rhinelander Paper company work on eight hour shifts. This new order requires the engagement of an extra crew as there are now three shifts of eight hours each filling out the working day of twenty-four hours. The change in hours was secured through efforts of the paper makers union.

For some time past the eight hour shift has been agitated by the paper makers here but the company did not feel in a position to meet with their demands.

Nearly all of the big paper plants throughout the country operate three shifts and the Rhinelander mill is among the last to fall in line.

SURRENDER CHARTER

After twenty-four years of existence the K. of P. lodge in this city surrendered its charter Tuesday. This was due to apparent lack of interest in the order by the members.
